## PRESS RELEASE

March 11, 2015

### **Great Pyrenees Technology to provide GIS and other IT services to the City of Joliet**

FRANKFORT, Ky.—Great Pyrenees Technology, L.L.C., will provide a variety of GIS and other IT services to the City of Joliet (Ill.) IT Department in 2015. These services will include:

- Development of custom ArcGIS Online applications
- Custom map production
- Data updates
- Database administration
- Support of other IT Department initiatives, including migration to a new customer-information system.

GPT will also provide on-call services as requested by the City.

Great Pyrenees Technology is a GIS, IT, and Web consulting company in Frankfort, Ky. GPT's services range from system planning, to database design, data editing and quality assurance, to custom application development and Web site design. See more at [www.greatpy.com](http://www.greatpy.com).
